

# American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

No. 1. JULY 1986

Comparative facilitated transport of oxygen <i>J. M. Gonzalez-Fernandez and S. E. Atta</i>	R1
Norepinephrine turnover in brown adipose tissue is stimulated by a single meal <i>Z. Glick and W. J. Raum</i>	R13
ACTH, cortisol, and renin responses to arterial hypotension in sheep <i>C. E. Wood</i>	R18
Increased left ventricular pressure attenuates the baroreflex in unanesthetized dogs <i>M. J. Holmberg and I. H. Zucker</i>	R23
Partition of heat loss in resting and exercising winter- and summer-insulated reindeer <i>L. P. Folkow and J. B. Mercer</i>	R32
Dehydration enhances endotoxin fever by increased production of endogenous pyrogen <i>A. Morimoto, N. Murakami, T. Ono, and T. Watanabe</i>	R41
Effect of synthetic atrial natriuretic factor on aldosterone secretion in the rat <i>R. C. Vari, R. H. Freeman, J. O. Davis, D. Villarreal, and K. M. Verburg</i>	R48
Effect of hypophysectomy on dipsogenic stimuli: evidence for angiotensin supersensitivity <i>R. H. Alper, C. F. Deschepper, and W. F. Ganong</i>	R53
Cecal degradation of uric acid in Gambel quail <i>C. E. Campbell and E. J. Braun</i>	R59
Temporal evolution of altered islet neurotransmitter sensitivity after VMH lesion <i>L. A. Campfield, F. J. Smith, and C. Larue-Achagiotis</i>	R63
Pancreatic adaptation in VMH obesity: in vivo compensatory response to altered neural input <i>F. J. Smith and L. A. Campfield</i>	R70
Neurohypophysial peptide potencies in cultured anuran epithelia (A6) <i>M. A. Lang, J. S. Handler, and H. Gainer</i>	R77
Changes in cardiac output and vascular resistance during behavioral stress in the rat <i>J. W. Hubbard, R. H. Cox, B. J. Sanders, and J. E. Lawler</i>	R82
An opioid antagonist, naltrexone, reduces preference for sucrose in humans <i>M. Fantino, J. Hosotte, and M. Apfelbaum</i>	R91
Comparative effects of CCK-8 on feeding, sham feeding, and exocrine pancreatic secretion in rats <i>R. D. Reidelberger and T. E. Solomon</i>	R97
Medullary lesions eliminate ACTH responses to hypotensive hemorrhage <i>D. N. Darlington, J. Shinsako, and M. F. Dallman</i>	R106
Chemoreflexive responses to hypoxia and NaCN in longnose gar: evidence for two chemoreceptor loci <i>N. J. Smatresh, M. L. Burleson, and S. Q. Azizi</i>	R116
Differential effect of behavior on cardiac and vasomotor baroreflex responses <i>C. A. Combe, O. A. Smith, C. A. Astley, and E. O. Feigl</i>	R126
Reduced running endurance in gluconeogenesis-inhibited rats <i>H. B. John-Alder, R. M. McAllister, and R. L. Terjung</i>	R137
Validation of doubly labeled water method using a ruminant <i>S. G. Fancy, J. M. Blanchard, D. F. Holleman, K. J. Kokjer, and R. G. White</i>	R143
Effect of endotoxic shock on kinetics of system A amino acid transport in rat soleus muscle <i>M. D. Karlstad and M. M. Sayeed</i>	R150
Water drinking induced by gastric secretagogues in pigs <i>T. R. Houp, L. C. Weizler, and D. W. Troy</i>	R157
Phospholipids, prostaglandin E <sub>2</sub> , and proteolysis in denervated muscle <i>J. Turinsky</i>	R165

Pressure-volume characteristics of aortas of harbor and Weddell seals <i>E. A. Rhode, R. Elsner, T. M. Peterson, K. B. Campbell, and W. Spangler</i>	R174
Suppression of plasma renin and aldosterone in stress-salt hypertension in dogs <i>D. E. Anderson, C. Gomez-Sanchez, and J. R. Dietz</i>	R181

---

#### RAPID COMMUNICATIONS

Renal responses to atriopeptin II are not dependent on renal nerves <i>J. Krayacich, R. L. Kline, A. Macchi, and F. R. Calaresu</i>	R187
Hepatic portal glucose infusions decrease food intake and increase food preference <i>M. G. Tordoff and M. I. Friedman</i>	R192

No. 2. AUGUST 1986

#### INVITED OPINION

Protons, osmolytes, and fitness of internal milieu for protein function <i>G. N. Somero</i>	R197
--	------

---

Oral hypertonic saline causes transient fall of vasopressin in humans <i>J. R. Sechl, T. D. M. Williams, and S. L. Lightman</i>	R214
Dexamethasone accelerates postnatal alveolar wall thinning and alters wall composition <i>D. Massaro and G. D. Massaro</i>	R218
Urinary bladder function and its control in healthy females <i>D. J. Griffiths, C. E. Constantinou, and R. van Mastrigt</i>	R225
Ontogeny of heart rate regulation in the bullfrog, <i>Rana catesbeiana</i> <i>W. Burggren and M. Doyle</i>	R231
Effect of glucose and other hexoses on efferent discharges of brown adipose tissue nerves <i>A. Nijima</i>	R240
Endogenous enkephalin modulation of dopamine neurons in ventral tegmental area <i>P. W. Kalivas and R. Richardson-Carlson</i>	R243
Analysis of factors involved in determining urinary bladder voiding cycle in urethan-anesthetized rats <i>C. A. Maggi, S. Giuliani, P. Santicioli, and A. Meli</i>	R250
Pressor responses to central hypertonic NaCl stimulation in conscious turkeys <i>J. C. Lee, D. M. Denbow, M. D. Ashen, and A. D. Roudabush</i>	R258
Food intake, feeding rhythm, and body mass regulation in Svalbard rock ptarmigan <i>K.-A. Stokkan, A. Mortensen, and A. S. Blix</i>	R264
Increased hexokinase activity in forebrain of water-deprived and diabetes insipidus rats <i>T. L. Krukoff, W. E. Turton, and F. R. Calaresu</i>	R268
Changes in forebrain hexokinase activity after aortic baroreceptor denervation <i>W. E. Turton, J. Ciriello, and F. R. Calaresu</i>	R274
Lung mechanics and connective tissue levels in starvation-induced emphysema in hamsters <i>J. B. Karlinsky, R. H. Goldstein, B. Ojserkis, and G. L. Snider</i>	R282
Renal nerve activity and renal function during environmental stress in DOCA-NaCl rats <i>J. P. Koepke, S. Jones, and G. F. DiBona</i>	R289
Effect of focal cooling of central chemosensitive areas on cerebral ischemic response <i>N. R. Prabhakar, J. Mitra, W. Van de Graaff, M. A. Haxhiu, and N. S. Cherniack</i>	R295
Effects of bombesin on thermoregulatory responses and hypothalamic neuronal activities in the rat <i>K. S. Lin and M. T. Lin</i>	R303
Role of atrial natriuretic peptide in volume-expansion natriuresis <i>T. R. Schwab, B. S. Edwards, D. M. Heublein, and J. C. Burnett, Jr.</i>	R310

Hemodynamics of obesity: influence of pattern of adipose tissue cellularity <i>D. L. Crandall, B. M. Goldstein, F. H. Lizzo, R. A. Gabel, and P. Cervoni</i>	R314
Relationship between autonomic and behavioral thermoregulation in the golden hamster <i>C. J. Gordon, K. S. Fehlner, and M. D. Long</i>	R320
Kinetic model of whole-body vanadium metabolism: studies in sheep <i>B. W. Patterson, S. L. Hansard II, C. B. Ammerman, P. R. Henry, L. A. Zech, and W. R. Fisher</i>	R325
Peripheral angiotensin II stimulates release of vasotocin in conscious chickens <i>K. Goto, T. I. Koike, H. L. Neldon, and D. W. McKay</i>	R333
Sympathetic control of adrenal secretion of enkephalins after hemorrhage in awake dogs <i>W. C. Engelstad, D. F. Bereiter, and D. S. Gann</i>	R341
Glucagon and epinephrine suppression of food intake in liver-denervated rats <i>L. L. Bellinger and F. E. Williams</i>	R349
Characteristics of myocardial $\beta$ -adrenergic receptors during endotoxicosis in the rat <i>F. D. Romano and S. B. Jones</i>	R359
Urinary and metabolic clearances of arginine vasopressin in normal subjects <i>A. M. Moses and E. Steciak</i>	R365
Effects of dietary protein and tyrosine on behavior of diabetic rats <i>L. L. Bellush and N. E. Rowland</i>	R371
Drinking and natriuresis during volume expansion and intracranial angiotensin or carbachol <i>D. A. Fitts and J. B. Simpson</i>	R381
Growth and hepatic composition in the guinea pig after long-term parenteral hyperalimentation <i>C.-J. Huang Lu, D. Redmond, R. B. Baggs, A. Schecter, and T. A. Gasiewicz</i>	R388
Kinetic analysis of zinc metabolism and its regulation in normal humans <i>M. E. Wastney, R. L. Aamodt, W. F. Rumble, and R. I. Henkin</i>	R398
Fetal vascular pressure and heart rate responses to nonlabor uterine contractions <i>R. A. Brace and D. S. Brittingham</i>	R409
Fetal cardiovascular and endocrine responses to prolonged fetal hemorrhage <i>R. A. Brace and C. Y. Cheung</i>	R417

#### RAPID COMMUNICATIONS

Electrical stimulation in subfornical organ increases plasma vasopressin concentrations in the conscious rat <i>A. V. Ferguson and N. W. Kasting</i>	R425
Hematocrit variation during sleep apnea in elephant seal pups <i>M. A. Castellini, D. P. Costa, and A. Huntley</i>	R429

#### No. 3. SEPTEMBER 1986

Metabolic features of diet-induced obesity without hyperphagia in young rats <i>B. E. Levin, J. Triscari, and A. C. Sullivan</i>	R433
Circadian urinary excretion rhythms in adrenalectomized rats <i>J. A. Poulié, F. Roelfsema, and D. van der Heide</i>	R441
Renin-angiotensin system, converting-enzyme inhibition, and kidney function in aging female rats <i>B. Corman and J.-B. Michel</i>	R450
Thermal and metabolic adaptation to first cold-water immersion in juvenile penguins <i>H. Barré and B. Roussel</i>	R456
Na-dependent D-glucose and L-alanine transport in eel intestinal brush border membrane vesicles <i>C. Storelli, S. Vilella, and G. Cassano</i>	R463
Perinatal anatomic development of alveolar type II cells in rats <i>G. D. Massaro, L. Clerch, and D. Massaro</i>	R470

Activation of the central vasopressin system: a common pathway for several centrally acting pressor agents

*K. A. Gruber and S. L. Eskridge*

R476

Anorexia induced in rat by D-glucosamine deoxidized at C-1

*K. Fujimoto, T. Sakata, T. Shiraishi, K. Kurata, K. Terada, and H. Etou*

R481

Recovery of blood volume and osmolality after thermal dehydration in rats

*H. Nose, M. Morita, T. Yawata, and T. Morimoto*

R492

Atrial natriuretic peptide levels during acute and chronic saline loading in conscious dogs

*F. J. Salazar, J. C. Romero, J. C. Burnett, Jr., S. Schryver, and J. P. Granger*

R499

Lesions in lateral parabrachial nucleus enhance drinking to angiotension

II and isoproterenol

*L. E. Ohman and A. K. Johnson*

R504

Spinal vasopressin mechanisms of cardiovascular regulation

*J. P. Porter and M. J. Brody*

R510

Brown fat mediates increased energy expenditure of cold-exposed overfed neonatal rats

*B. J. Moore, J. S. Stern, and B. A. Horwitz*

R518

Pressor resistance to vasopressin in sodium depletion, potassium depletion, and cirrhosis

*B. M. Murray and M. S. Paller*

R525

Control of renin secretion by  $\text{Ca}^{2+}$  and cyclic AMP through two parallel mechanisms

*C. S. Park, D. H. Sigmor, D. S. Han, T. W. Honeyman, and J. C. S. Fray*

R531

Metabolic sources of energy for hummingbird flight

*R. K. Suarez, G. S. Brown, and P. W. Hochachka*

R537

Effects of atriopeptin and chicken heart extract in *Gallus domesticus*

*C. M. Gregg and R. F. Wideman, Jr.*

R543

Effect of adrenomedullation on metabolic responses to high-intensity exercise

*J. C. Marker, D. A. Arnall, R. K. Conlee, and W. W. Winder*

R552

Endocrine mechanisms regulating sodium excretion during water deprivation in dogs

*C. H. Metzler, T. N. Thrasher, L. C. Keil, and D. J. Ramsay*

R560

$\alpha_1$ -Adrenergic receptor activation depolarizes rat supraoptic neurosecretory neurons in vitro

*J. C. R. Randle, C. W. Bourque, and L. P. Renaud*

R569

Area postrema lesions: cause of overingestion is not altered visceral nerve function

*G. L. Edwards and R. C. Ritter*

R575

Plasma volume changes during head-out water immersion in conscious dogs

*K. Miki, G. Hajduczok, S. K. Hong, and J. A. Krasney*

R582

Enhancement of slow-wave sleep by endotoxin and lipid A

*J. M. Krueger, S. Kubillus, S. Shoham, and D. Davenne*

R591

Epithelial responses of rabbit tongues and their involvement in taste transduction

*S. A. Simon, R. Robb, and J. L. Garvin*

R598

Gastric emptying of glucose loads in rats: effects of insulin-induced hypoglycemia

*M. J. McCann and E. M. Stricker*

R609

Cardiac receptors, vasopressin and corticosteroid release during arterial hypotension in dogs

*M.-E. Lee, T. N. Thrasher, L. C. Keil, and D. J. Ramsay*

R614

Volume influences on thirst and vasopressin secretion in dehydrated sheep

*R. G. Park, M. Congiu, D. A. Denton, and M. J. McKinley*

R621

Relating left ventricular dimension to maximum elastance by fiber mechanics

*R. Beyar and S. Sideman*

R627

---

**SPECIAL COMMUNICATIONS**

Circadian principles and design of rotating shift work schedules

*F. W. Turek*

R636

---

**RAPID COMMUNICATIONS**

Trout vascular and renal responses to atrial natriuretic factor and heart extracts

*D. W. Duff and K. R. Olson*

R639

No. 4. OCTOBER 1986

Interrelationship of blood flow, juxtaglomerular cells, and hypertension: role of physical equilibrium and Ca	R643
<i>J. C. S. Fray, D. J. Lush, and C. S. Park</i>	
Environment and hamster reproduction: responses to phase-specific starvation during estrous cycle	R663
<i>L. P. Morin</i>	
Cardiac input to medullary reticular formation: neuronal responses to CAO	R670
<i>R. W. Blair</i>	
Cardiac input to medullary reticular formation: neuronal responses to mechanical stimuli	R680
<i>R. W. Blair</i>	
Angiotensin and Na appetite of sheep	R690
<i>R. S. Weisinger, D. A. Denton, M. J. McKinley, A. F. Muller, and E. Tarjan</i>	
Comparison of four methods of averaging nerve activity	R700
<i>F. A. Hopp, J. L. Seagard, and J. P. Kampine</i>	
Systemic angiotensin acts at subfornical organ to facilitate activity of neurohypophyseal neurons	R712
<i>A. V. Ferguson and L. P. Renaud</i>	
Intracranial infusion of CCK-8 derivatives suppresses food intake in rats	R718
<i>T. Mori, K. Nagai, H. Nakagawa, and N. Yanaihara</i>	
Clearance and tissue distribution of fibronectin in septic rats: relationship to synthetic rate	R724
<i>J. L. Kiener, T. M. Saba, E. Cho, and F. A. Blumenstock</i>	
Cardiovascular and endocrine responses to head-up tilt and vasopressin infusion in humans	R735
<i>P. Bie, N. H. Secher, A. Astrup, and J. Warberg</i>	
Hypotension induced by passive head-up tilt: endocrine and circulatory mechanisms	R742
<i>K. Sander-Jensen, N. H. Secher, A. Astrup, N. J. Christensen, J. Giese, T. W. Schwartz, J. Warberg, and P. Bie</i>	
Elevated CSF osmolality inhibits thermoregulatory heat loss responses	R749
<i>E. Turlejska and M. A. Baker</i>	
Does serotonin play a role in entrance into hibernation?	R755
<i>B. Canguilhem, J. L. Miro, E. Kempf, and P. Schmitt</i>	
Salt appetite is suppressed by interference with angiotensin II and aldosterone	R762
<i>R. R. Sakai, S. Nicolaïdis, and A. N. Epstein</i>	
Pressor contributions from angiotensin and vasopressin after polyethylene glycol	R769
<i>S. M. Gardiner and T. Bennett</i>	
Locomotion without lungs: energetics and performance of a lungless salamander	R775
<i>R. J. Full</i>	
Fate of labeled albumin and erythrocytes following injection into amniotic cavity of sheep	R781
<i>S. Tomoda, R. A. Brace, and L. D. Longo</i>	
$K^+-H^+$ exchange and volume homeostasis in brown adipose tissue mitochondria	R787
<i>D. J. DiResta, K. P. Kutschke, M. D. Hottois, and K. D. Garlid</i>	
Intragastric balloon reduces food intake and body weight in rats	R794
<i>A. Geliebter, S. Westreich, D. Gage, and S. A. Hashim</i>	
Hypothalamic glutamatergic input to medullary sympathoexcitatory neurons in rats	R798
<i>M.-K. Sun and P. G. Guyenet</i>	
Role of carotid sinus and aortic nerves in respiratory control of infant rats	R811
<i>M. A. Hofer</i>	
Cystic fibrosis and $\beta$ -adrenergic response of airway epithelial cell cultures	R818
<i>J. H. Widdicombe</i>	

No. 5. NOVEMBER 1986

Contribution of zona incerta to osmotically induced drinking in rats	R823
<i>D. Mok and G. J. Mogenson</i>	

Effects of alkalosis on skeletal muscle metabolism and performance during exercise <i>L. L. Spriet, M. I. Lindinger, G. J. F. Heigenhauser, and N. L. Jones</i>	R833
Fatty acid oxidation and glucose utilization interact to control food intake in rats <i>M. I. Friedman and M. G. Tordoff</i>	R840
Hemodynamics of hemorrhage in the conscious rat and chicken <i>J. M. Ploucha and G. D. Fink</i>	R846
Blood flow to brown fat in lean and obese adrenalectomized Zucker rats <i>S. J. Wickler, B. A. Horwitz, and J. S. Stern</i>	R851
Renal regulation of interorgan glutamine flow in metabolic acidosis <i>T. C. Welbourne, D. Childress, and G. Givens</i>	R859
Alterations in cardiac [ <sup>14</sup> C]deoxyglucose uptake induced by two renal afferent stimuli <i>N. L. Herman and D. R. Kostreva</i>	R867
Osmoregulation during high salt intake: relative importance of drinking and vasopressin secretion <i>A. W. Cowley, Jr., M. M. Skelton, and D. C. Merrill</i>	R878
Hepatic splanchnic function in acutely hypoxic humans at rest <i>J. R. Blackmon and L. B. Rowell</i>	R887
Effect of hypoxemia on plasma catecholamines in intact and immunosympathectomized fetal lambs <i>J. A. Schuipers, D. W. Walker, C. A. Browne, and G. D. Thorburn</i>	R893
Oxygen binding in alligator blood related to temperature, diving, and "alkaline tide" <i>R. E. Weber and F. N. White</i>	R901
Cardiovascular responses to hemorrhage and naloxone in conscious barodenervated rabbits <i>J. C. Schadt and R. R. Gaddis</i>	R909
Total peripheral resistance during cardiac tamponade: adrenergic and angiotensin roles <i>T. L. Cogswell, G. A. Bernath, H. Raff, R. G. Hoffmann, and H. S. Klopfenstein</i>	R916
Some metabolic and behavioral effects of adrenalectomy on obese Zucker rats <i>T. W. Castonguay, M. F. Dallman, and J. S. Stern</i>	R923
Caudolateral areas of medulla-mediating release of ACTH in cats <i>D. A. Bereiter and D. S. Gann</i>	R934
Effects of lung volume and O <sub>2</sub> and CO <sub>2</sub> content on cutaneous gas exchange in frogs <i>G. M. Malvin and M. P. Hlastala</i>	R941
Control of atrial natriuretic factor release in conscious dogs <i>K. M. Verburg, R. H. Freeman, J. O. Davis, D. Villarreal, and R. C. Vari</i>	R947
Sodium absorption coupled to ammonia excretion in osmoconforming marine invertebrates <i>K. C. Hunter and L. B. Kirschner</i>	R957
Decreased testosterone levels do not mediate short-photoperiod-induced brown fat changes <i>K. S. Kott, B. J. Moore, and B. A. Horwitz</i>	R963
Dorsomedial hindbrain participation in cholecystokinin-induced satiety <i>G. L. Edwards, E. E. Ladenheim, and R. C. Ritter</i>	R971
Modeling the contractility of urinary bladder smooth muscle using isometric contractions <i>R. van Mastrigt, J. W. B. Koopal, J. Hak, and J. van de Wetering</i>	R978
Rat liver free cytosolic Ca <sup>2+</sup> and glycogen phosphorylase in endotoxicosis and sepsis <i>I. V. Deaciuc and J. A. Spitzer</i>	R984

---

#### SPECIAL COMMUNICATIONS

Closed ventriculocisternal perfusion to determine CSF production rate and pressure <i>A. A. Artru and T. F. Hornbein</i>	R996
